

WHAT IS IT?

A pre-waxing cosmetic to sanitise & prepare the skin before waxing for a successful treatment. It can also be used to sanitise technician's hands & treatment area to maintain hygienic practices.

KEY FEATURES

- **SANITISES THE SKIN**
Has anti-bacterial & anti-fungal properties to sanitise the skin pre-wax, reducing risk of infection.
- **IMPROVES WAX ADHERENCE**
Effectively removes traces of makeup, deodorants and/or body creams from the skin to help the wax adhere better.
- **NON-ASTRINGENT FORMULA**
Non-drying, non-irritating formula.

ACTIVE INGREDIENTS

9.5% ALCOHOL

To sanitise and keep the skin free from bacteria.

MENTHOL

Has a cooling action while enhancing skin permeability.

CASTOR OIL

Promotes wound healing with its natural moisturizing & anti-fungal properties.
