Fact Sheet

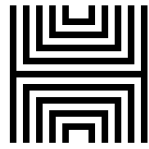

1051 SkinMate Microderma- brasion Machine

Description

Microdermabrasion is a non-invasive cosmetic procedure that uses diamond heads and a vacuum to remove dead skin cells. It can be used on the face, neck, chest, back, and hands. It is an excellent treatment to add to your beauty or aesthetic business due to the affordability of the treatment and the fact that clients can have it weekly.

Minimise fine lines and wrinkles, increase circulation, and restore dull complexions.
