

WHAT IS IT?

A dry oil formulated to prepare and condition excessively dry or scaly skin before a waxing treatment. This creates a protective barrier between the wax and the skin for more comfortable treatments. Great to use if waxing with Traditional Wax.

KEY FEATURES

- **CONDITIONS THE SKIN**
Deeply nourishes & conditions dry and scaly skin, to avoid excessive skin-pulling.
- **GIVES FLEXIBILITY TO HAIRS**
Gives flexibility to the hairs, allowing for a more effective epilation without causing hair breakage.
- **MORE COMFORTABLE TREATMENTS**
Protects the skin from being excessively pulled or tugged during treatments.

ACTIVE INGREDIENTS

APRICOT KERNEL OIL

Deeply nourishes the skin and protects skin integrity without the oily residue.

BISABOLOL

From Camomile Essential Oil. Calms and soothes the skin to prevent irritation.
