AQUA VITAL

essential hydration and oxygenation.

AN ESSENTIAL LINE FOR ALL SKINS AND VITAL FOR ALL  
PROFESSIONAL TREATMENTS.

ANESI  
LAB

## WHY AQUA VITAL?

---

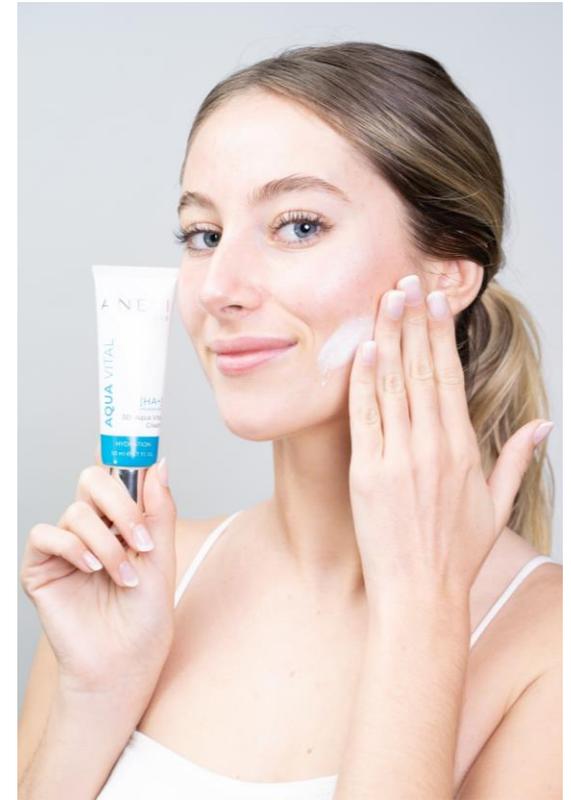

Our skin is consistently losing water, known as trans epidermal loss (TEWL) a process in which moisture evaporates from the skin's surface.

All skin types are vulnerable to dehydration and premature ageing.

As we age, the skin's hydration and oxygen levels naturally decline.

Hydration helps to keep the skin barrier functioning properly, prevents moisture loss and intercepts environmental toxins from causing irritation.

Oxygen increases the natural energy of the cells, stimulating cellular renewal.

## AQUA VITAL SKIN TYPES

---

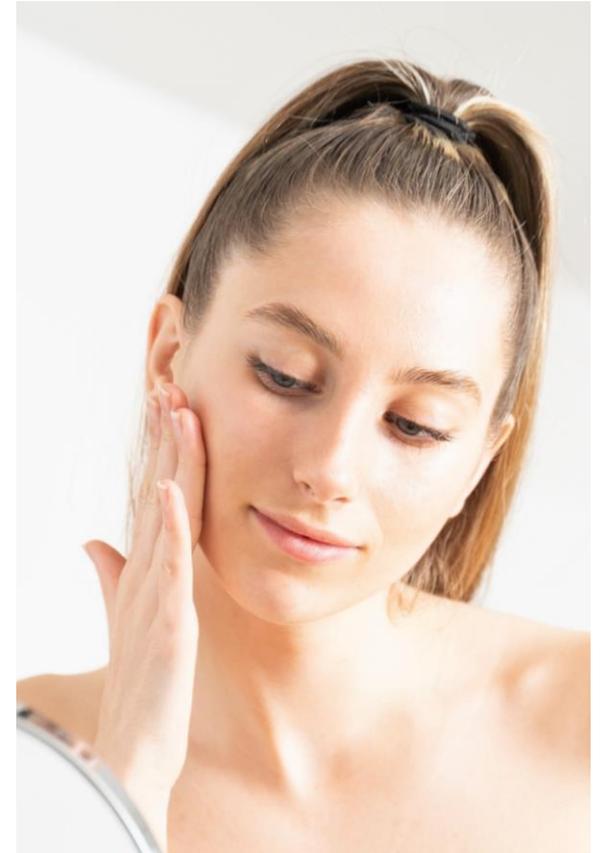

The comprehensive Aqua Vital products treat all symptoms of dry or dehydrated skin

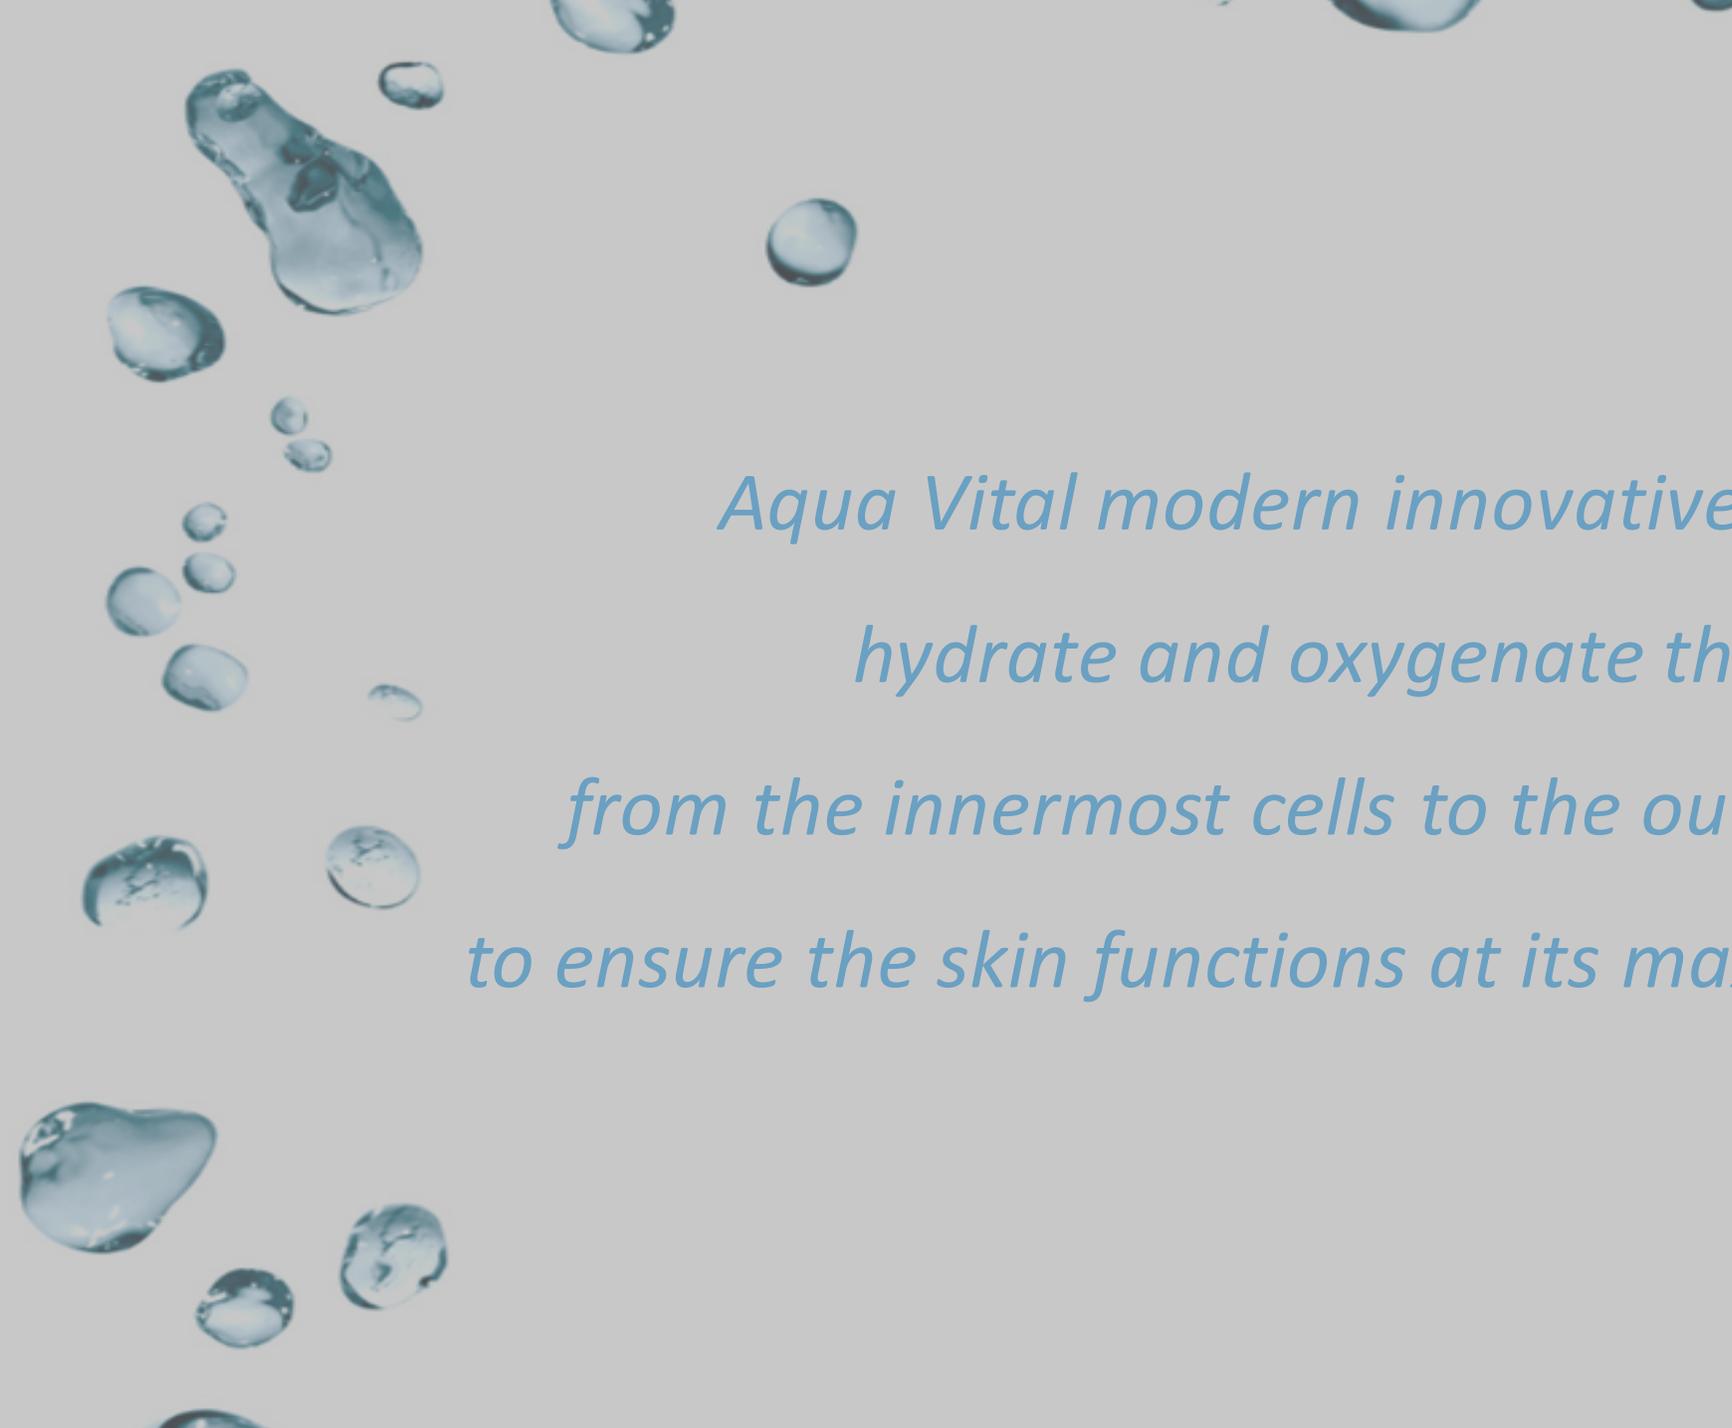

### DRY SKIN - *lacking in oil.*

- Skin is patchy, flaky, or uncomfortably tight.
- Dryness compromises the barrier properties of the skin, and our complexion vulnerable to environmental ageing and sensitivity.

### DEHYDRATED SKIN - *lacking in water.*

- Can affect dry and oily skin.
- Skin appears dull, flaky with shiny areas and might be slow to heal.
- Dry skin with dehydration is more prone to premature ageing.
- Unbalanced skin needs hydration to aid skin healing and restore balance.

A collection of various-sized, clear water droplets is scattered across the left side of the image. The droplets are set against a light, neutral-toned background that transitions into a white background on the right side. The droplets vary in size and shape, some appearing as simple spheres while others are more elongated or irregular, capturing light and creating highlights and shadows.

*Aqua Vital modern innovative formulas  
hydrate and oxygenate the skin  
from the innermost cells to the outermost layers  
to ensure the skin functions at its maximum potential.*

# AQUA VITAL KEY ACTIVES

---

## ESSENTIAL HYDRATION:

**Hyaluronic Acid:** High and low molecular weights ensure **immediate** and deep **long-lasting** hydration. **18 x more effective** than previous HA.

**3D Polarized Water:** Hydrates all the skin layers and promotes filaggrin activity to strengthen the skin. Filaggrin is a protein essential for maintaining the integrity of the skin barrier **and helps lower TEWL**.

**Betaine:** 100% bio-based, amino-acid extracted from sugar beet. A **natural 'osmoprotectant'** protects cells from environmental stress by controlling cell water balance to prevent dehydration and aid cell detox.

## CELLULAR OXYGENATION:

**Complex of essential amino acids:** (Valine, Threonine, Glutamic Acid, Glycine) and **Soy Protein** increases oxygen consumption to revive dull looking skin. Proven to **boost oxygen uptake by up to 750%** and increase **cell renewal up to 25%**.

## HYDRA-THERMAL VITALITY PROTOCOL OVERVIEW

### CLEANSING:

Remove makeup: **Express Cleansing Milk**. Deep cleanse: **Mousse Radiance Foaming Gel**. Tone: **3D-Aqua Toner**.

### EXFOLIATION:

**Enzymatic Peeling**. Mix with 3D-Aqua Lotion, apply with brush & leave for 7-10 mins.

OR

**Aqua Vital Exfoliant**. Apply with a brush. Leave for 2 minutes & gently buff away. Remove with warm water & tone with 3D-Aqua Toner.

### 3D HYDRATION:

Apply 3-5 drops of **3D-Aqua Serum & Cream** and lightly massage (Drain-Detox or Remodelling Massage)

### THERMAL VITALITY MASK:

Test the mask temperature on the wrist before applying to the face.

Begin the application with a spatula, starting on the outer parts of the face and neck. Gradually move across the cheeks & centre panel, checking the temperature is not too hot. Ensure the edges are neat and the mask is 3-5mm deep. Leave for 15 minutes. Remove by lifting away, spritz tone & apply 3D-Aqua Serum & Cream.

**NOTE:** Skin may be flushed due to increased circulation. **Oxygenating Gel can be applied to soothe.**

Remove after 5 minutes with a spatula, spritz tone & apply 3D-Aqua Serum & Cream.
