

SOFT & BRIGHT SOFT & BRIGHT STRIP WAX

WHAT IS IT?

A strip wax which doubles up as a skin brightening treatment while effectively removing the hair. This wax has a low temperature and an ultra-thin application.

ACTIONS

Infused with pigment-fighting active ingredients to brighten and boost the skin's radiance, while preventing post-inflammatory hyperpigmentation (which can be common after epilation, especially in delicate areas!)

- 2 With an ultra-thin application, we're able to remove even the most stubborn hairs while avoiding any skin irritation due to the low temperature.

ACTIVE INGREDIENTS

BIO-BASED RESIN

With a certified biological origin, this ingredient has a low molecular weight, is compatible with the skin and kind to the environment.

ALPHA ARBUTIN & MULBERRY EXTRACT

A powerful combination of 2 pigment-fighting actives. These ingredients work by inhibiting the tyrosinase enzyme, responsible for the production of Melanin, while brightening the skin.

TITANIUM DIOXIDE & MICA

Provide a creamy consistency and anti-inflammatory properties. The mica adds a pearly appearance and protects the skin.
