

WAXCEUTICAL®
SOFT & BRIGHT

SOFT & BRIGHT CLARIFYING SERUM

WHAT IS IT?

A face and body serum formulated with brightening actives to brighten and even the skin tone for a visibly radiant complexion. It's lightweight texture and molecular weight has been specifically formulated to optimize absorption into the deepest layers of the skin.

ACTIONS

- 1 The pigment-fighting active ingredients work synergistically to instantly brighten the skin while acting as a pigment-inhibitor to prevent further formation of hyperpigmentation.
- 2 Takes advantage of pore dilation and increased blood flow when used after a Waxceutical Soft & Bright Waxing Treatment, ensuring active ingredients have maximum absorption.

ACTIVE INGREDIENTS

GATULINE SPOT LIGHT

Works at both epidermal and dermal layers to target localized areas of hyperpigmentation and skin darkening, reducing the appearance and size.

CITRUS UNSHIU EXTRACT

Inhibits the tyrosinase enzyme, responsible for producing Melanin, therefore preventing formation and the further darkening of existing hyperpigmentation.
