

WHAT IS IT?

An easy-to-use and fuss-free roll-on wax with a low melting point, characterised by its unique pink colour. Has an ultra-thin application, with maximum adhesion to the hair.

KEY FEATURES

- **SAVES TIME**
Low melting point for quicker treatment times.
- **ECONOMIC**
With an ultra-thin application method, more treatments are performed per cartridge for an economical wax.
- **EFFECTIVE ON SHORT HAIRS**
Has a superior grip on even the shortest of hairs.
- **NO RESIDUES LEFT**
High-quality bio-based resins gives the wax plasticity, leaving minimal residue

ACTIVE INGREDIENTS

BIO-BASED RESIN

This wax is made of natural and organic raw materials such as pine rosin and resin derived from soy glycerin. Compatible with the skin and kind to the environment.

TITANIUM DIOXIDE

Has anti-inflammatory properties while forming a protective barrier between the hair and skin. Gives the wax a creamy and rich texture.
