

100 ml

### WHAT IS IT?

An easy-to-use and fuss-free roll-on wax with a low melting point. Has an ultra-thin application, yet still adheres to the hair well. Formulated with Bio-Based Pine Resin as an alternative treatment for those looking for a natural epilation method.

### KEY FEATURES

- **REDUCES TREATMENT TIME**  
Low melting point for quicker treatment times.
- **ECONOMIC**  
With an ultra-thin application method, more treatments are performed per cartridge for an economical wax.
- **PROVIDES A NATURAL ALTERNATIVE**  
The perfect wax for clients who prioritize products from organic origin and are respectful to the environment with no added colouring.
- **NO RESIDUES LEFT**  
High-quality bio-based resins gives the wax plasticity, leaving minimal residue

### ACTIVE INGREDIENTS

#### BIO-BASED RESIN

This wax is made of natural and organic raw materials such as pine rosin and resin derived from soy glycerin. Compatible with the skin and kind to the environment.
